CFO-RC FILE X:

RESULTS:

Species:(Common Name): Parasitic Jaeger		(Scientific Name) Stercorarius parasiticus
Date(s) of occurrence: October 13, 2000		
Number of birds seen: One of that morph	Sex: Unknown	Plumage: Juvenal dark morph
Exact Location: Chatfield Reservoir		
County: Jefferson	Nearest town: Littleton	Elevation: 5432 msl
Length of observation: Approximately 10 minutes off and on.		Time(s) of observation: Morning
Other observers who saw the bird(s) with you: None		
Other Observers who independently saw the bird(s): I heard of others but cannot remember who.		
Light Conditions (quality; direction relative to bird(s); position: Good. Mostly sunny skies with sun to east and bird mainly to west.		
Optical equipment used: 8x40 Swift Bins, 32x Scope		
Distance from bird(s) (estimated unless otherwise noted): Varied. Closest distance was perhaps 150 yards.		
Was bird(s) photographed? No	If so, have you submitted photos?	
Who took the photographs?		
Describe the general and specific habitat in which the bird(s) occurred: Open water lake		
Describe the bird's behavior (flying, feeding, habits, behaviors used in identifying the Species or in supporting the identification): Flying mainly and harassing Ring-billed Gulls. Also observed loafing on water.		
Describe the bird in detail. This is the most important part of this report. Include the overall size and shape and how you placed the bird in the general group that you did. Give complete details of plumage, including head, throat, undersides, nape, back, wings and tail. Give particular emphasis to marks you used to identify the bird(s). Describe other important details, such as color and shape of bill, legs, eye, (etc.) that were important in making the identification. (Fill out this portion even if photographs are submitted; you may attach additional sheets, drawings, field sketches or copy field notes):		
Describe bird's call or song: None heard		
Discuss similar species and how you eliminated them:		
What is your prior experience with this and similarly appearing species? Quite extensive. Have observed approximately 25 different birds on Lake Superior alone in Wisconsin and Minnesota and have observed other birds in California and on the East Coast.		
List books, guides, recordings or other sources consulted and how this influenced your identification (during and after observation):		
This report is from notes made during or after XX observation or later from memory		
Date of written report: 9/23/01		
Reporting observer: Larry Semo		Signature:
