- (87) yellow-bellied Sapsucker. ♂ (red throat - ♂)
150 yards e. of SW corner of cemetery just on the golf course.
Clump of 8 Austrian pine, 2 spruce & 2 lg cottonwoods just
north of water/pest bait & lg sign with red 8 & blue 17 on it.
Headstone just north of clump is "HEATH" (w) & "BURKE" (r).
Studied bird @ length as it made the rounds to feed
at sap wells made on 2 of the lg Austrian pines (12-16" dbh).
Heard it "mew" 5 or 6 times. Usually called only once,
sometimes twice then would go several minutes before
calling again. Most of wells worked was @ 15' off
ground.
