WHO TOOK THE PHOTOGRAPHS? _____

DESCRIBE THE GENERAL AND SPECIFIC HABITAT IN WHICH THE BIRD(S) OCCURRED:

Dense shrubby/wooded area adjacent to cinder foot path, near small creek/ditch, south of Clear Creek

DESCRIBE THE BIRD'S BEHAVIOR (FLYING; FEEDING; HABITS; BEHAVIORS USED IN IDENTIFYING THE SPECIES OR IN SUPPORTING THE IDENTIFICATION):

Slow, deliberate feeding along branches throughout vegetation. Calm activity; movement confined to relatively small area. I left at 0900, met Terry, who wanted to see bird. We returned to same location at 0915 and easily found bird again in same bushes.

DESCRIBE THE BIRD IN DETAIL. THIS IS THE MOST IMPORTANT PART OF THIS REPORT. INCLUDE THE OVERALL SIZE AND SHAPE AND HOW YOU PLACED THE BIRD IN THE GENERAL GROUP THAT YOU DID. GIVE COMPLETE DETAILS OF PLUMAGE, INCLUDING HEAD, THROAT, UNDERSIDES, NAPE, BACK, WINGS AND TAIL. GIVE PARTICULAR EMPHASIS TO MARKS YOU USED TO IDENTIFY THE BIRD(S). DESCRIBE OTHER DETAILS, SUCH AS COLOR AND SHAPE OF BILL, LEGS, EYE, ETC. THAT WERE IMPORTANT IN MAKING THE IDENTIFICATION. (FILL OUT THIS PORTION EVEN IF PHOTOGRAPHS ARE SUBMITTED; YOU MAY ATTACH ADDITIONAL SHEETS, DRAWINGS, FIELD SKETCHES OR COPY OF FIELD NOTES):

Sparrow, warbler size. Uppers: Head medium gray throughout, back olive-green. Iris white, spectacles (supraloral through eyering) yellow; black, stubby bill. Dark gray/blackish wings with 2 white wing bars (white tips of greater and median secondary coverts). Fine yellow edges on secondaries.
Unders: whitish from chin through undertail coverts with borders of yellow/olive along sides of breast and on flanks.

DESCRIBE BIRD'S CALL OR SONG: "chick-of-the-wer-old, veer-ee-o " and a 5 note phrase beginning and ending in "chick".

DISCUSS SIMILAR SPECIES AND HOW YOU ELIMINATED THEM: Plumbeous, Cassin's and Blue-headed Vireos have white spectacles and dark eyes. Plumbeous in May lacks any yellow on flanks and has gray back; Cassin's usually has some greenish tones on head. Song of White-eyed Vireo is distinctive.

WHAT IS YOUR PRIOR EXPERIENCE WITH THIS AND SIMILARLY APPEARING SPECIES?

I have multiple experiences with each of the above species in Colorado and Texas.
